#### **VOLVO DOUBLE DRUM COMPACTORS**

## 0015

15-16+ 62 kW

# LEADING THE INDUSTRY IN PERFORMANCE, SAFETY, AND DURABILITY

Volvo Construction Equipment offers vibratory compactors with stellar performance and unsurpassed value. The DD15 features a drum with 66,7 Hz frequency—the same high frequency found in much larger machines—to give you better speed and higher productivity. Built for comfort and safety as well, these double-drum compactors offer a competitive advantage in hot mix asphalt, soil sub-base, aggregate-base, and numerous other applications.

#### **Performance Features**

#### Drum performance

- 66,7 Hz frequency provides optimal impact spacing at higher rolling speeds
- DD15 Wide Drum: front-drum vibration only, double-drum vibration, or static mode
- DD15 Narrow Drum: front drum vibration / static only
- Machined drum surface has chamfered edges to produce a professional quality finish on each job
- Durable carbon steel and thick shells prolong drum life

#### · Industry-leading water system

- 197 I water tank
- Water flows only when the compactor is moving (in automatic mode)
- Standard pressurized spray system distributes water coverage evenly across each drum

#### Operations

- Full-day fuel capacity extend operating intervals
- High curb and minimal side clearances allow efficient maneuvering around obstacles
- Isolation of the vibratory drum and operator platform enhances operator comfort and safety
- Propulsion and vibration controls are conveniently designed for comfort, simplicity, and ease of use

#### Serviceability

- Unobstructed daily checkpoints
- Easy-to-lift engine enclosure
- Ground-level access to engine, radiator, battery, and filters
- Color-coded service charts with detailed checkpoints, service intervals, and lubricant info

#### Comfort and safety

- Continuous alarm until seat belt is fastened
- Easy access to primary controls
- Vibration-isolated and molded skid-resistant platform with kick plates for added safety
- Standard safety features include: Roll Over Protective Structure (ROPS), convenient grab handle on both sides of compactor, springapplied, hydraulically released parking brake (SAHR), emergency stop switch, seat shut down switch, and propulsion control with neutral start

#### **Available Options**

- Audible alarm
- CE Certification
- Foldable ROPS
- Hazard and turn signals
- Hydraulic test ports
- Inside wipers
- Low fuel alarm
- Series traction control
- Special paint
- Strobe light
- Urethane wipers
- Water strainer
- Work lights
